## Bubble Burst Patch

Download ->>> <http://bit.ly/2Jq2qpP>

### **About This Game**

Bubbles... Only you can stop them. Collect three bubbles of the same color or more to burst them. You are waiting for a lot of exciting levels. You will also receive special bubbles that will not let you be bored. You will find a pleasant musical accompaniment and a view that will please the eyes.

Also in the game there is a user game mode. It will become available after passing all levels. In it, you can choose the settings to your taste, to get double the fun of the game.

lol, that's a funny game! i immediately felt immersed in this cartoony looking wild west city. holstering, then drawing your 2 big guns and blast away is a very satisfying experience. can't wait for multiplayer and well worth the 4 bucks i paid.. 99 cents. My god what have I gotten myself into?. You have to like old school dungeon crawlers to appreciate the game. Having said that it was everything an old school RPG game should be about. I'm a bit of a 1-time-pass-thru-completionist (rather than quick finish to replay for alternative paths) and I got almost everything done in 187 hrs. There was only a few times I felt it was tedious play and that was with the friggin horrible "lights go out, so you must click millions off times to move inches" periods. The game does have a few minor bugs, like some times in teleporting your party members can end up inside room objects and freezes game for reload and if you happen to double click when casting sometimes your party members cast fake spells and move (when not supposed to move at all) so wasted turns can happen in middle of battles. BUT even with those minor bugs, the game was so fun and challenging I didnt mind over looking them. Newer more expensive games with better graphics have been doing much worse lately. Just suggestion, but go into settings and set party to move in fast mode or you might want to kill them yourself waiting to move very far! I'm definitely a fan of Spiderweb after this intro and I've already purchased x3 more Avernums based off this one. If that helps you decide in a purchase.. I've played about half an hour of The Dream King. I want to like this game. It sounds nice. But music alone does not a good game make. It feels so unpolished - like a high school kids hack at a flash game on Newgrounds. If patches ever come out, I might give it another go.

Thank God for Steam Refunds.. do not have ultra wide support

. Gameplay is a little shaky at first, but once you get used to this game it is awesome. It is very enjoyable, and a great use of brain power!

A slightly different take on the "match 3 coloured balls" malarky, but still just as engaging!. I love the software its easy to use cheap and for a beginner in recording its exactly what i needed. But has more options than some of the other beginner softwares. Edit: 3 years or so after a developer said offline was impossibke, a fix has now been released! So offline is now possible. Good stuff

Original review:

The game is good but it requires a constant internet connection to play, for a game from 1989.

.. One of the best Free 2 play games on the market i highly recommend this game if you want laughs with friends 4+ plus is where its at.

hope they add more maps and add more customizations to the games!!!

overall a great game and having a blast with it atm. If you want too

You can massacre Somalians citizens. Without getting Court Martialed.. Great puzzle game that requires a good eye and coordination. I love the ambient setting of the space and calm music score. Some levels will require patience and calmness in order to workout the angles that the player needs to achieve in order to move to the next puzzle. Looking forward to more releases :)

#### **Update on Localisation and Level Unlock:**

Hi Guys, we continue to update the game daily. We found some errors in the subtitles and a few in the game. Totally my fault in not managing the file formats and encoding of all the translations. The translation is 86,000 words so is a massive job. We are continuing to fix existing languages.

German, Portuguese (pt-br) and French languages will be added in the coming week.

Good news: the "Dating App" AKA Tinder level will unlock on the 19th of September. This level is our 2nd biggest and was the 2nd most expensive to make after Level 1. It's totally different and I hope you like it :)

Finally, I just added a 6 minute preview of our documentary, you can see it here:

[https://store.steampowered.com/app/932743/Super\\_Seducer\\_2\\_Documentary\\_The\\_Dark\\_Side\\_of\\_Seduction/](https://store.steampowered.com/app/932743/Super_Seducer_2_Documentary_The_Dark_Side_of_Seduction/)

I'll post another update next week when we have added more languages and the bonus level goes live.

Thanks for your support so far and patience with these localisation issues :)

Rich

#### **. Dating App Level is LIVE (plus updates):**

Hey Everyone,

We have now gone live with our "Dating App" level. This level is totally different from the other levels in the game. If you are into Tinder dating I'm sure you'll get a lot out of it. Even if not, it's one of our most interesting levels and was the hardest for us to produce. I hope you like it!

In other news, we are still working on Portuguese (br) and German subtitles and I hope to have those working by early next week!

Regards,

Rich. Snow Light Super Seducer 2 - Advanced Seduction Tactics **Twitch Integration and Korean language added today!:**

Hi Everyone,

Big update today! We have added Twitch integration to both Super Seducer 1 and 2.

---

Here are the instructions:

<https://www.puatraining.com/superseducer/twitch/>

We also noticed that the game was recently a hit in Korea so we've added Korean language support. Credit to [redacted] for the translation :) I've been to Seoul twice and really like Korean movies so was happy to see the game do well there :)

I'm also getting lots of questions about Super Seducer 3...what to say? Well we are working on it, it's going to be great...and when I have news I'll announce it on Twitter. Wishlists are open on Steam.

Thanks to all the Super Seducer fans for the support, good reviews, positive comments, and overall support, it's all much appreciated by me and our small team!

Rich

**. Language support:**

[redacted]

[redacted]

[redacted]

For other languages, we are working hard to either incorporate or to get them working properly. Sorry for any issues in your language, we had a bigger translation job this time and less time to test, we hope to get everything working well with current languages in the next few days.

German and Portuguese will be added next week.. **German and Portuguese-br subtitles are live!:**

We are live with German and Portuguese-br. Sorry for the delay in getting these into the game! Now we will be testing to see that the subtitles show for each option, this is a manual process and we'll continue to push live updates as we make fixes.

By the end of the week we should have all the languages in a very solid state. We will also be making other more general non-language fixes.

Thank you for your patience waiting for these!

Remember that I'm interested to hear your feedback, especially on the new things in SS2:

- What you thought of the new characters.
- Whether the stand-up comedy level was fun.
- What you think of the Tinder level.

etc. So please let me know in the community hub. I check in every few days to see what people are saying :)

Rich
